Long Beach, CA September 4, 2018 ... Muni-Fed Energy, Inc. is pleased to announce the key appointment of Gregory Alexander, PE to the position of Vice President and Chief Operations Officer to the Muni-Fed team. "Muni-Fed is very excited to have Greg join us as a critical part of our advancement in the market. He has unique skill sets that complement our growth strategy in the various markets we serve." reports Clay Sandidge, President and CEO.

Greg recently joined Muni-Fed Energy, Inc. as Vice President and serves as the firm's Chief Operating Officer. Greg brings to Muni-Fed nearly 20 years of analytical and regulatory experience in the public and private sectors. Greg has focused much of his career on the goods movement and power generation industries. Over that time, he has helped clients successfully navigate the regulatory and technical obstacles necessary to reduce air emissions, operating costs, and eliminate inefficiencies. Greg has been deeply involved in emission reduction and electrification strategies for ocean going vessels, cargo handling equipment, and on-road trucks.

As Chief Operating Officer for Muni-Fed, Greg is responsible for ensuring the organized delivery of our services to our clients. Greg is closely involved with the Harbor Association of Industry and Commerce and American Association Port Authorities. Greg holds a BS in Biology from Harvey Mudd College and a MS in Environmental Engineering from the University of Southern California. A registered civil engineer, he lives and works in Long Beach, CA.

About Muni-Fed Energy

Muni-Fed identifies and implements energy efficiency, energy generation and environmental projects and provides business development consulting services to federal, municipal and commercial clients. As a comprehensive partner, Muni-Fed works with clients from project discovery through finance, development and commissioning. For more information, visit www.munifedenergy.com.
