

SERVICE LOCATION PREPARATION LIST

TO BE COMPLETED BEFORE OUR AGENT ARRIVES

Before we start scanning, we ask that our clients stage the entire site (inside/outside) so the people you share the Matterport Space with have a great first impression when they explore it.

- Stage the Site** - (make it beautiful) you want the people you share the Matterport Space with to have a great first impression when they explore it.
- Clean, Organize, and Arrange the Site**- as you want it to appear in your 3D Showcase. Hide personal belongings, personal or private information, as well as unattractive items. Basically, hide anything that you don't want people to see.
- Keep Out Moving Objects**- like pets and people. They can cause alignment errors, poor quality photos, or just distract from the experience.
- Keep Doors Completely Open or Closed**- A closed door means that we ARE NOT scanning that room and it won't be part of the final Matterport Space.
