

STEM54

**Summer Camp 2020
COVID - 19 READY!**

Application Form

We have implemented a new structure this year in line with COVID 19 Pandemic Guidelines by California Department of Public Health, California Department of Social Services in collaboration with The California Department of Education.

- All children will be required to have a COVID 19 test.
- They will have to supply us with negative results prior to attending.
- A copy of the test result will have to be emailed to theknowledgeshopla@gmail.com and mobilemathandsciencelabs@gmail.com prior to starting the camp.
- All students will have their temperature taken three times a day, on arrival, at lunchtime, and in the afternoon. If their temperature is 100.4 parents will be asked to collect their child.
- Please provide your child(ren) with hand sanitizer. It will be available at The Knowledge Shop and STEM 54 as well but we are encouraging less social contact with all the children.

This summer because of the pandemic and social distancing we have limited space available. Places will be offered on a first come, first serve basis, all that evidence and documentation will be provided in advance along with your payment.

All students should also have a mask to wear during classes. We will not expect them to use them during lunch and snack times. Our building has been thoroughly disinfected in preparation for this year's summer camp. We will continue to clean the building during the day when the children are present to prevent contamination.

We look forward to seeing your children at this summer's program. We still will provide a full program of learning and fun. If you have any further questions please do not hesitate to contact us so we can answer any of your concerns.

We understand that many of our students have had little or no math and science instruction or distance learning during the shutdown.

Black and Brown children are currently the lowest performing children in the state of California. Our summer intensive ensures that our children will return to school ready to hit the ground running.

Below are the daily schedules.

Mornings: Academics

Afternoons: Enrichment

Our 2020 Summer camp is known as:

S-Science

T-Technology

R-Reading

E-Engineering

A-Academic/Arts

M-Math
