The Foundation:

Classic Stone Creations

The singular effect achieved by adding a Classic Stone Creations fireplace surround to your home interior and exterior is undeniable. A beautiful cast limestone fireplace certainly evokes feelings. Feelings expressed in words like; warmth, security, joy and comfort. These feelings come from fond memories of roasting marshmallows or sharing a bottle of wine around the fire with family and friends...or memories yet to be created.

Whether it is one of our signature series, or a custom one-of-a-kind mantel created just for you and your home, Classic Stone Creations will add subtle beauty, elegance, and style to anchor a room perfectly.

Cast stone has been a prime building material for hundreds of years. The earliest known use of cast stone dates to 12th century Europe. Our products are real cast stone, not plaster or resin based mixtures. Our proprietary mixture includes very fine natural stone aggregates, and hardeners that possess the look and warmth of quarried limestone or Italian travertine, while often being stronger and more durable than cut stone. Cast stone is ideally suited for both interior and exterior applications, because of its strength and natural beauty. We are constantly adding and updating our collection to meet a wide range of tastes and budgets. Because the fireplace is such a focal point in any home we always custom size and scale our designs to meet your particular needs and space. We truly enjoy the opportunity to work one on one with designers, homeowners and builders to create a beautiful and lasting fireplace surround that will be enjoyed for years to come. Custom Creations

Designed for You

At Classic Stone Creations, we take pride in our one-of-a-kind custom pieces. The piece in your home will be the only one like it in the world. We have in-house architectural design consultants and gifted craftsmen who work closely with you to create the look you want. Over the years we have crafted thousands of one-of-a-kind fireplace surrounds for our clients. The photos in our literature and web-site are just a small collection of the architectural focal points we have crafted. If you don't see a design that fully meets your needs, we welcome the opportunity to meet with you to design an original that will.
